To Whom It May Concern:

Gabriel Shaw began working in the Emergency Department with us in February of 2012. Since that time, he has shown excellent work ethic and a sincere dedication to health care. It has been a pleasure to work with him.

Even through long hours or difficult patients, Gabriel always has a smile on his face. His positive attitude contributes to employee morale as well as patient satisfaction. Gabriel has become an asset to the team.

As an Emergency Department charge nurse, I have personally supervised Gabriel's work. His duties include: receiving and transferring patients, wound care, splinting, phlebotomy, IV therapy, and others. He has also developed skills in trauma, cardiac, and stroke alert patients.

Please consider this a very high recommendation for Gabriel Shaw. Feel free to call me with any questions. Thank you.

Sincerely,
Ken Overbay, ED Charge R.N.
